BEFORE THE FLIGHT

If you like, you can help lay out and launch the balloon and the pilot will answer all your questions. Once the balloon inflated, you will be called on board. The pilot will operate the burners and you will lift off in surprising serenity !

THE FLIGHT

You will then enjoy the pleasure of the slow ascent and the silent flight. While drifting above the countryside, as on a magic carpet, you will discover a magnificent view of the landscape. After an hour's flight, it will be time to prepare to land.

AFTER THE FLIGHT

With the retrieve crew, who have met us on the landing place, it is now time to celebrate this exciting and memorable adventure : a "café-croissant" is served for a morning flight and chilled champagne for an evening flight. And don't forget the traditional visitors' book before being congratulated with a commemorative flight certificate.
